

5" COLONIAL WALL

Wall Systems

The 5" Colonial Wall is offered in hard-split rock face finish. It features a double-sided face, available in three face lengths and includes corner units (packaged on a combined pallet). The tongue and groove locking mechanism will ensure a solid connection and helps facilitate rapid installation. It is perfect for a wide range of applications from garden and free-standing walls to fire pits. There is also a prepackaged Colonial Pier to add the finishing touch to your wall.

NOTE: All walls over 2' in height or as required by local code should be designed by a licensed professional engineer. All measurements are nominal. Variance in square footage or linear footage coverage can be up to 5% depending on joint width. The possible occurrence of efflorescence does not affect the structural integrity of the product. Efflorescence is a normal occurrence in concrete products and will dissipate with normal weathering. The use of concrete as a base or setting bed may increase the possibility of efflorescence.
